

Y4 Week 3 Challenge

This week we would like you to make a bee house for your garden (or the school garden if you prefer!). There are lots of designs on the internet but below is a link to a really simple one which uses only an empty can, toilet rolls and scrap paper.

We don't mind what your bee house (or hotel) looks like and we don't think the bees will either. We look forward to seeing some photos next week.
