

## Year 6 Challenge!

### Learning Recommendation.

#### Task:

Write a recommendation for other children about a topic that you have studied in school.

Think back on your time in primary school and try to remember a topic or unit of work that you particularly enjoyed or made you feel inspired.

Why do you remember it so clearly?

Has it fostered a lifelong interest?

Did you carry out any extra research?

Is there one outstanding memory?

Did you share your work with anyone?

Why would you recommend it?

Is there one piece of work you especially enjoyed?

You may present your work as a piece of writing; make a PowerPoint; design a poster; write a booklet; design and write a quiz; create a spider diagram; or use any other medium that you think appropriate.

We would like to make some sort of display or presentation out of your work so please make sure that it is of the highest quality and that it is neat enough to be presented to others.
