

Term 2

Creative Piece of Homework

In Y2, our leading question, which we will be answering this term, is: “What do all humans need to survive?”

We will be exploring this question through our learning in Science and learning about the importance of diet and exercise.

We thought it'd be fun and creative if you and your child could do one, or a combination of the following optional tasks:

- A poster of the activities / exercise that you do to keep fit and healthy with labels and description
- A video of your activities / exercise in action (emailed to admin@...).
- A photo montage (with descriptive captions) describing what you do.
- Prepare and give a short presentation in class about your sports and bring in an object into school to help you (e.g. tae-kwon-do belts, swimming medals).
- Make a poster /keep a diary of all foods you have eaten during a day, or week - showing a balance of the foods you eat.

If you are taking part, please bring your finished piece into school on Friday 15th December.

Thank you, and have some fun!

Mr Bloys and Mrs Chew
